UGANDA – AVIVI-1 COMPLETED AND ABANDONED

Tower Resources plc (AIM: TRP) has advised that it has completed operations on the Avivi-1 exploration well in Uganda Licence EA5. The well was plugged and abandoned and the rig released.

The well, which was drilled to a total depth of 764 metres, did not encounter oil, despite persistent methane gas traces, and tested water from the target reservoir interval using a wireline fluid sampler. Electric logging confirmed the absence of oil and gas.
